

PATHWAYS TO A ——— **LIMITLESS FUTURE**

#IGFLondon

24 - 28 JUNE 2024

Parliamentary Breakfast Briefing

House of Commons Terrace Dining Room, Westminster

09:00 - 10:45 BST

(Members & By Invite)

Welcome to the heart of the UK's democracy. Participants will meet with senior Parliamentarians at this special breakfast briefing in the historic surroundings of the House of Commons, with an opportunity to discuss and input into the vision and plan for the UK-India relationship.

REGISTER INTEREST

The Forum

QEII Conference Centre, London

14:00 - 17:30 BST

(Ticketed)

IGF London will be the first major international India centric event following the Indian elections where PM Modi is seeking a record third term. It also comes at a time of continuing global turbulence. As always, our blockbuster inaugural session at the iconic Queen Elizabeth II Conference Centre will assemble the biggest names in business and politics to ask the big questions on India and its leadership on the World Stage.

Check back for exciting speaker announcements starting in early June.

BOOK NOW

IGF Leaders Dinner

Locarno Suite, Foreign and Commonwealth Office, Westminster

18:30 - 20:30 BST

(Members & By Invite)

The IGF Leaders Dinner will be hosted at the UK Foreign Office in the Foreign Secretary's purpose-built suite of dining rooms, the Locarno Suite, named after the Locarno Treaties, which were designed to usher in a new era of international cooperation. This IGF London opening dinner will honour, celebrate, and strengthen the UK-India partnership.

IGF Climate and Business Forum (ClimB): Powering Progress

One Birdcage Walk, Central London
10:30 - 14:30 BST

(Ticketed)

The 5th global edition of IGF's Climate & Business Forum (ClimB) will focus on how energy transition, finance, clean technologies, and AI can speed up global efforts to achieve net zero by 2050. We will hear from some of the world's pre-eminent minds and showcase innovative solutions from India and beyond that are perfectly placed for global application.

Registration

Welcome Remarks and Setting the Scene

Investing for Good

Gain insights from one of the UK's prominent philanthropists and leading investor of climate initiatives, as they share their perspectives and experiences.

Banking on the Future – Financial Institutions Fuelling Sustainable Innovation

From renewable energy startups to sustainable infrastructure ventures, discover how financial institutions are driving positive environmental impact through strategic investments. Gain insights into the potential impact of such investments on both the financial sector and the broader sustainability agenda.

Beyond Breakthroughs – Next Frontier of Energy Innovation

As renewable energy sources continue to gain momentum in the global energy transition, it's crucial to explore what lies beyond. Join us for an engaging session where we delve into the next frontier of sustainable energy. From advancements in energy storage and distribution to breakthroughs in fusion energy and beyond, we will examine the opportunities and challenges in diversifying our energy mix for a greener future.

Going All Electric – Are We in For a Shock?

Mobility across the world is embracing the shift to an all-electric and sustainable infrastructure, integrating efficiency, affordability, and accessibility. With increasing demand on the power grid, will innovation and technology advancement be enough? Join this conversation to learn more about a world that is electric, smart, and green.

Urban Utopias – Integrating Smart and Green Infrastructure

Eco-smart cities are emerging as a response to rapid urbanisation and environmental concerns, aiming to balance population needs with sustainable practices. This session explores the fusion of smart technologies and green infrastructure and visualises the blueprint for tomorrow's green, smart cities.

Global Climate (AI)genda – Can Bots Help Us Reach NetZero?

As Bill Gates mentioned, the glass may still be 'half full' on preventing climate change's lasting impacts, and with AI aiding innovation, we have the potential to speed up the progress on energy transition. Join this conversation to debate how AI can help us reach net zero targets, and why it is an essential component of the global climate agenda.

Networking and Lunch**BOOK NOW****Global Investors Dialogue****London Stock Exchange (LSE)****15:00 - 17:30 BST****(By Invite)**

This high-level discussion will convene top Indian and global investors and corporate leaders to explore how the investment climate in India will evolve following the formation of a new government in June. We'll explore the role that London can play in facilitating large investments and capital flows into the world's fastest growing major economy and ask how Indian businesses can harness London's vast pool of international equity and debt capital for infrastructure building, capacity expansion and job creation.

The roundtable will be followed by an opportunity to participate in networking over wine and canapes and the London Stock Exchange's '*Closing Bell*', specially organised to mark India Global Forum and its contribution to UK-India relations.

REGISTER INTEREST

St. James' Court, A Taj Hotel
10:00 - 20:30 BST

IGF Dialogues

St. James' Court, A Taj Hotel
9:00 - 17:00 BST

(By Invite)

The IGF Dialogues is an exclusive platform featuring peer-to-peer Roundtable Dialogues that convene prominent business leaders and policymakers to explore opportunities, overcome challenges, and build alliances across sectors, stakeholders, and geographies, the outcomes of which will form a comprehensive published report.

GLOBAL PARTNERSHIPS

■ Diplomacy for Business

A high-level interaction over lunch between business leaders and senior diplomats from various countries based in London on the agenda and priorities of the new Indian Government and key areas for collaboration and cooperation between the nations represented.

■ Emerging Economies

Increasing understanding of how innovation in business and governance is evolving in emerging markets and how these experiences can be scaled to tackle global challenges in climate change, healthcare, financial inclusion and beyond.

■ The India-Middle East-UK Corridor

Exploring how India's position as a major technology innovator and emerging global supply chain hub, the Middle East's financial prowess and gateway location, and the UK's investment and infrastructure expertise can converge to create a powerful nexus for economic growth and collaboration

HEALTHCARE

■ Healthcare 2030 – Innovations and Opportunities

Join us as we look ahead to the next decade of healthcare, where innovative practices such as AI, machine learning, and advanced technology are set to transform personalised medicine. Our expert roundtable will also explore the integration of preventative and holistic healthcare approaches, which appear to be the road ahead.

SUSTAINABILITY

■ Decoding Energy Diversification

Identifying policy interventions, business opportunities, and strategies that will promote the development of an alternative energy economy.

■ **The Road Ahead – What’s Next for the Indian EV Sector?**

India’s EV market is fast-expanding and is poised to ramp up exports in the near future. With a growing market and consumer base, the Middle East and beyond presents strategic opportunities that Indian EV and OEM players can explore. However, is it a promising venture or a risky gamble? Join this session to discover factors driving the region’s emergence as a potential global EV hotspot.

■ **Future of Food Security**

Creating opportunities and efficiencies across the food supply chain for enhanced food security including boosting biotechnology and innovation in agriculture.

■ **Driving Global Innovation – Cleantech and the Road Ahead**

Identifying and showcasing clean technologies that can accelerate adaptation and resilience to climate change globally, while also increasing investor and business confidence.

LEADERSHIP

■ **Funding Women Entrepreneurs – What Works?**

All entrepreneurial journeys are difficult, but how much tougher is it for women in particular. This discussion explores the challenges and solutions in building a pipeline of reliable funding for women entrepreneurs to access global markets.

■ **Girls First – Addressing Gender Inequality**

Evaluate strategies, lessons from India, and projects to provide girls with the skills and education needed for professional growth and success.

■ **Transformational Leadership for Young Entrepreneurs**

Transformative leadership skills that young entrepreneurs can use to grow their businesses and to successfully navigate a global economy in flux.

EDUCATION AND SKILLS

■ **Advantage AI – Getting Workforces Future Tech Ready**

Explore the future of workforce development where AI and digital learning strategies are essential for meeting the skill demands of emerging technologies. This discussion delves into how these tools are transforming education, focusing specifically on equipping the workforce with the necessary skills to thrive in an evolving tech landscape.

■ **Pathways to Excellence – UK-India Collaboration in Higher Education**

India, known for its skilled workforce, is embarking on a journey to expand its education sector globally by leveraging the UK's expertise in higher education. Explore how this collaboration is creating cross-border educational pathways for mutual growth and innovation.

TECH AND INNOVATION 12:30-13:45 BST**■ Reforming Governance with Technology**

Technology's swift progress presents questions and opportunities for the UK and India. Organisations across the world face the critical challenge of navigating regulatory compliance, optimising costs, and leveraging digital tech for growth. Governments meanwhile want value for public money as they allocate higher budgets to transformation in areas like tax, pensions, welfare, health, and education.

Innovating Finance – The New Era of AI, Blockchain, Digital Currency and Emerging Tech

An exclusive interaction on how global innovation is revolutionising the financial landscape, from AI-powered analytics to blockchain's decentralised systems to the rise of digital currencies. Join industry experts and visionaries as we navigate the transformative opportunities and challenges shaping the financial industry in this digital age.

REGISTER INTEREST**IGF Studio****St. James' Court, A Taj Hotel****10:00 - 16:30 BST**

IGF's popular broadcast-style studio is moderated by celebrated international newsroom presenters and filmed in front of a live audience. Dedicated to putting some of the hottest topics across tech, media, leadership, and geopolitics under the spotlight, with some of the world's leading and provocative voices.

All day gourmet hospitality and a networking lounge runs parallel to the IGF Studio, providing an opportunity to mingle with speakers and fellow participants in the stylish surroundings of the Taj.

Welcome and Setting the Scene**The World Uncut (Global Partnerships)****Riding the Storm – India's Resilience Amidst Global Turmoil**

Be it the ongoing Russia-Ukraine conflict, the latest flashpoint in the Middle East, or the attacks on shipping vessels by Iran-backed Houthi rebels in the Red Sea, the era of global conflict continues. In the midst of geopolitical instability, India stands as a key player, even as it walks a tightrope balancing a robust diplomatic independence with its global partners. How can India and its global partners effectively navigate the evolving geopolitical arena and align their interests?

Scratching the Surface – Unravelling the Future of Indo-UK Defence Cooperation

Rajnath Singh's visit to the United Kingdom – the first by any Indian defence minister in 22 years – marked a pivotal moment in the UK-India defence partnership. Yet, there is a lot to be achieved. While India is one of the world's largest arms importers, Britain contributes only a measly 3% of India's defence acquisitions. How can we unleash the full potential of one of the pillars of the India-UK 2030 Roadmap?

MONEY MATTERS**Mission 2047 – Dream or Destiny?**

The Government of India has set an ambitious target of making India a developed nation by 2047 - 100 years after independence. How realistic is India's blueprint for the future? What are the challenges and opportunities that the future heralds? How can the UK and other global partners leverage their expertise in innovation and entrepreneurship to align with India's journey towards becoming a developed nation?

Multilateral Financing – Reform or Bust?

As India and the Global South region collectively grows in influence, this discussion asks whether existing multilateral financing institutions are still fit for purpose. With their origins and representation skewed to the Global North, how can we create a genuinely global system where there is a balanced exchange of ideas and participation between each region?

CLIMATE MATTERS**What Lies Ahead for Climate and Trade? Scenarios and Strategies for Climate Competitiveness**

The relationship between emissions-mitigation policies and international trade is expected to become more intricate and interconnected as nations and businesses intensify their efforts to mitigate climate change. Join us to explore the potential impact of climate action, global trade, and economic growth on achieving global net-zero goals.

Are Quantum Technologies the Key Gamechanger for Climate Change?

The amazing innovations upending the energy ecology are being referred to as "gamechangers" almost too often. However, quantum computing may very well deserve the phrase. Explore the exciting possibilities and challenges of harnessing quantum computing as a gamechanger in our quest for a sustainable future.

Global Health Security in a Changing Climate – Is Boosting Financing the Prescription?

Despite rising mortality rates from climate-related risks like extreme heat and respiratory diseases among vulnerable populations, only 0.3% of global adaptation funds support healthcare. Join this panel to explore strategies and innovation to accelerate investments from private sector and multilateral institutions and learn how these can promote climate health equity and save lives.

HEALTHCARE HORIZONS

Embracing Digital Healthcare – Are We Prepared?

Digital advancements, including telehealth and teleconsultation, are transforming healthcare, as evidenced by India's Ayushman Bharat Digital Mission inspired by the NHS's pioneering teleconsultation services. These innovations offer medtech companies significant opportunities to enhance operational efficiency. However, despite the clear benefits, are industry players prepared for integrating digital technologies into fundamental business practices?

MindTech – Breaking Barriers and Stigmas in Mental Health

Mental health start-ups have seen unprecedented success since the COVID-19 pandemic. From digital therapeutics to virtual support systems, we'll explore the innovative solutions that are not only improving access to mental healthcare but also playing a crucial role in dismantling the stigma around seeking help.

Back to the Future? Embracing Holistic Healthcare

Explore the fusion of traditional holistic practices with cutting-edge research and technology, embracing innovative models that prioritise holistic healing and preventive care. This session will delve into the integration of traditional and modern medicine and examine the increased focus on preventive medicine in the post-COVID era, showcasing Tula's pivotal role in this trend.

TECH TALKS

Fortify and Innovate – The New Tech Order of the World

With an imperative need for rapid technology adoption, how do people, governments, and businesses protect themselves from data theft and cyber fraud? Join this discussion with industry experts as they convey real-life scenarios and demonstrate the best means of effective transformation.

From Coin to Crypto – The Era of Web3, Metaverse and Beyond

Dive into a world where decentralisation is the name of the game, and everything from blockchain to the metaverse is turning the digital landscape on its head. Unleash your inner tech rebel and join us to explore how Web3 is shaking up the status quo, putting power back in the hands of the people. Let's get quirky with the future of the internet!

Future Workspaces – AI and the Evolution of Careers

As with many technological advancements in the past, the advancement of artificial intelligence has created fears that many professions will become obsolete. Take a look at what experts think AI means for the future of work.

Networking and Lunch

CULTURAL NARRATIVES

Dream 2036 – The Future of Indian Sports

What innovative strategies and cutting-edge infrastructure is needed to push India further towards its Sports Dream? Join us as we explore the next steps, from building and updating state-of-the-art training facilities to rural talent initiatives.

Out with the Old and In with the New? The Evolution of Creative Expression

Is traditional content fading into obscurity or can it coexist with the rising trend of short-form content? This panel will discuss how content and storytelling is evolving by exploring changing audience trends and new and innovative forms of creative expression.

Keeping Up With the Creators

From YouTube and Vine to Instagram and TikTok, the creator economy has seen explosive growth in recent years, redefining the digital marketing and content landscape. But while influencer marketing displays a certain shine, what are the challenges and complexities that underline this dynamic industry and what does the future look like?

INSPIRE NEXT

From Zero to One – Innovating and Investing in Tomorrow's Businesses

The paradox of teaching entrepreneurship is that such a formula necessarily cannot exist. With today's young entrepreneurs eager to solve tomorrow's problems, join this session to explore how to leapfrog innovation and take your venture from zero to one, gaining insights into the methods that drive success in the modern entrepreneurial landscape

From Vision to Victory – How Young Founders Are Rewriting the Business Playbook

Converging fresh innovation and unique perspectives, young entrepreneurs are rewriting the rules of business today. However, the journey from Zero to One—or Vision to Victory—is fraught with challenges. In this session, hear directly from founders about how they navigate these obstacles and discover the key attributes that investors seek in the ventures they support.

Dream, Dare, and Do – Young Leaders Redefining Business for Social Impact

This session showcases the inspiring journeys of young leaders who are boldly redefining the business landscape by intertwining profit with purpose. From innovative startups and young philanthropies to established ventures, join this session to learn more about the hopes young people have for a sustainable, innovative and inclusive future, and how they are building it.

WOMENIN

Has DEI become Signalling over Substance?

In a time when conversations about DEI have become increasingly prominent, has demonstrating public commitment to DEI values overshadowed tangible actions and meaningful progress? Our panel of experts will analyse the nuances, difficulties, and possible solutions in driving real outcomes.

Survivor Voices – Adversity into Opportunity

Be prepared to be moved and inspired by this session which features remarkable women who have overcome enormous obstacles in their lives. Hear inspiring and powerful stories from survivors of acid attacks, FGM, and sexual and domestic assault and courageous individuals that have emerged as leaders in their community and beyond, making an impactful difference in the world today.

Winning Leadership Strategies from a Global Businesswoman & Leader**WomenIN Forum****St James' Court, A Taj Hotel****14:30 - 17:30 BST****(Ticketed)**

The WomenIN Forum, which has been running for the past 5 years, is one of IGF's most popular platforms for women and men and is our commitment to diversity and gender equality in all walks of life. This year's forum will feature a number of parallel roundtable discussions on the most pertinent DEI themes for businesses and government. We will showcase lessons and experiences from India and beyond and consider ways to drive positive outcomes at scale and speed. For its final session, the WomenIN Forum will merge with the IGF Studio for a special feature: a women-led 'Inspiring Journey.'

BOOK NOW**IGF Summer Reception****The Courtyard, St. James' Court, A Taj Hotel****18:00 - 20:00 BST****(Ticketed)**

Wind down the day in the exquisite courtyard of St James' Court with fellow IGF participants and members for an evening of al fresco dining, live music, and networking.

BOOK NOW

Philanthropy Roundtable

Fairmont Windsor Park

09:30 - 11:00 BST

(By Invite)

This roundtable will address solutions to global socioeconomic challenges, with a special focus on providing girls with the skills and education needed for professional growth and success. We explore how organisations can balance purpose and adaptability, drive meaningful change in communities worldwide and shape a future where philanthropy isn't just a gesture, but an integral part of corporate DNA.

Founders and Funders Forum: Future, Now? A Day in the Life of a Human(oid)

Fairmont Windsor Park

11:00 - 16:30 BST

(Ticketed)

Welcome to the (not-so-distant) future. The year is 2035. Tech has integrated itself into every part of our lives – from our workplaces and playgrounds to our relationships – making everything available at the swipe of a finger. But have we isolated ourselves completely or enriched our lives beyond what our ancestors ever imagined? Have we created more space for creative thinking or made way for the mundane? Has innovation made us more humane or less human? Hear from some of the top global innovators as they discuss, debate and reflect on what the world will look like in the coming decade. You'll either leave this forum wildly optimistic or scared for the future.

Registration and Networking

Introduction from Hosts

Morning

Barre Necessities – Healthy Obsession or Obsession with Health?

FitTech has redefined the way we move, track, and achieve our fitness goals. Join us as we explore the fine line between cultivating a healthy lifestyle through technology and succumbing to obsessive behaviours driven by constant data tracking.

You're Driving Me Crazy – Travelling to Work in 2035

Imagine commuting to work with self-driving cars, robo-taxis, air hubs and hyperloops. The future is not that far away. From leading automotive manufacturers to startups, R&D centres to investors, everybody absolutely wants a share of this pie. Fasten your seatbelts and join us on this journey as innovators in this space take us into the future of commute.

The Great Debate: Who's Afraid of the Big Bad Vegan?

Food is humanity's most basic need, but are we now disrupting it? Are plant-based alternatives truly beneficial for us and the planet, or are they just a fleeting trend? Is meat-eating really as detrimental as claimed, or is this just a way for vegetarians to justify missing out on tastier options? Join us for a meaty discussion.

Lunch and Networking**Afternoon****The Time Traveller's Guide to AI**

Imagine a world of robots, flying cars, talking dogs, and humanoids. By 2035, technology will permeate every aspect of our lives, driving innovation and transforming industries. Is this the world we are creating for ourselves? What does the future hold for businesses in this tech-driven landscape?

Hey! AI! Don't Leave Them Kids Alone!

Gone are the times of classroom learning where going to a physical setup was critical to learning. The future of education will be driven by innovative teaching methods, cutting-edge AI technologies and experiments, and potentially even robots who replace teachers in the world run by AI.

The Great Debate: I, Robot – Whose Job Is It Anyway?

Prepare yourself for a debate on the future of work amidst rapid technological shifts. Explore points of view on the rise of roles like prompt engineers, blurring lines between human expertise and AI. Join us as we dissect the ethical implications and potential job disruptions in an increasingly automated world.

Sorry, You're on Mute

From sitting by the phone waiting for it to ring to having our watches buzz every time a text comes in – we are truly inextricably wired. Will the next phase be holograms, or will it be teleportation devices as promised by Star Trek? Or are we heading towards a new form of communication that transcends language barriers?

Money, Money, Money, Could Be Funny, in a Tech World

Gone are the days of carrying cash or even credit cards. The age of digital currencies like Dogecoin, meme coins, and NFT-backed assets is turning the concept of money upside down. Join us for a lively discussion on the concept of money in today's rapidly evolving tech-driven economy and what currency you should bet on for the future.

Evening**The Great Debate – Et Tu Machina?**

Creativity is experiencing a profound metamorphosis, challenging our fundamental assumptions and reshaping the landscape of entertainment. Gone are the days of passive consumption; AI and tech has not just opened up new forms of content but also the ways in which we consume it. With entertainment evolving and rapidly offering various escape routes into alternate realities, are the lines between man and machine, imagination and reality finally blurring?

All Spaced Out – Moon, Mars, and Machines

Imagine a world where space travel is routine, impacting our daily lives with advances in space tourism, resource extraction, and global communication. The time is not too far in the future. We might to hitch a ride soon to the space. Let's hear from the innovators what our journey to the space will look like!

You Gotta Have F(AI)th?

Cutting-edge technology is not just revolutionising health, food, and our social life. It has transcended to God and spirituality, providing immersive experiences and connectivity to sacred sites worldwide. Beyond this, it has also had a transformative impact on how we access and consume the holy grails, bridging ancient wisdom with modern innovations for a deeper spiritual connection. Truly, God is now omnipresent.
